PRESENT LABOR SITUATION NOW SIGHS RELIEF

The present unemployed situation materially was relieved this morning when the Associated Charities received a communication from a plantation near Hauula to the effect that 40 men at once could be given work in the cane fields. Spencer Bowen, manager of the charities, says that he will have no trouble in securing the necessary men, and the first detachment, with their families, will leave for the windward side tomorrow morning.

The communication to the charities further states that the men will be given employment for at least three months, after which time they will have ample opportunity to secure work in the pineapple fields. It is intimated that those who are sent by the charities may be assured of steady employment. According to Mr. Bowen, the work on the sugar plantation will be contract labor; that is, so much per ton will be paid for cutting and so much a ton for loading.

Statistics show that now the charities has in the neighborhood of 200 persons dependent upon it, both for food and employment. Many of the men who will be placed on the plantation have large families and, as they will take their families with them when they leave for the other side, it will mean that this number of dependents will be greatly reduced.

HEADACHY, COSTIVE, BILIOUS,—"CASCARETS"

Sick Headache, Bad Breath, Sour Stomach, mean Liver and Bowels are clogged—Cheer up!

Get a 10-cent box. Sick headache, biliousness, dizziness, coated tongue, foul taste and foul breath—always trace them to torpid liver, delayed fermenting food in the bowels or sour, gassy stomach.

Poisonous matter clogged in the intestines, instead of being cast out of the system is re-absorbed into the blood. When this poison reaches the delicate brain tissue it causes congestion and that dull, throbbing, sickening headache.

Cascarets immediately cleanse and regulate the stomach, remove the sour, undigested and fermenting food and foul gases, take the excess bile from the liver and carry out all the constipated waste matter and poisons in the bowels.

A Cascaret tonight will surely straighten you out by morning. They work while you sleep—a 10-cent box from your druggist means your head clear, stomach sweet and your liver and bowels regular for months.—advertisement.

But many a slip occurs soon after the cup has been to the lip.

Women Everywhere

Praise Lydia E. Pinkham's Vegetable Compound

Women from the Atlantic to the Pacific, from all sections of this great country, no city so large, no village so small but that some woman has written words of thanks for health restored by Lydia E. Pinkham's Vegetable Compound. No woman who is suffering from the ills peculiar to her sex should rest until she has given this famous remedy a trial. Is it not reasonable to believe that what it did for these women it will do for any sick woman?

Wonderful Case of Mrs. Stephenson, on the Pacific Coast.

INDEPENDENCE, OREGON.—"I was sick with what four doctors called Nervous Prostration, was treated by them for several years, would be better for a while then back in the old way again. I had palpitation of the heart very bad, fainting spells, and was so nervous that a spoon dropping to the floor would nearly kill me, could not lift the lightest weight without making me sick; in fact was about as sick and miserable as a person could be. I saw your medicines advertised and thought I would try them, and am so thankful I did for they helped me at once. I took about a dozen bottles of Lydia E. Pinkham's Vegetable Compound and also used the Sanative Wash. Since then I have used them whenever I felt sick. Your remedies are the only doctor I employ. You are at liberty to publish this letter."—Mrs. W. STEPHENSON, Independence, Oregon.

A Grateful Atlantic Coast Woman.

HODGON, ME.—"I feel it a duty I owe to all suffering women to tell what Lydia E. Pinkham's Vegetable Compound did for me. One year ago I found myself a terrible sufferer. I had pains in both sides and such a soreness I could scarcely straighten up at times. My back ached, I had no appetite and was so nervous I could not sleep, then I would be so tired mornings that I could scarcely get around. It seemed almost impossible to move or do a bit of work and I thought I never would be any better until I submitted to an operation. I commenced taking Lydia E. Pinkham's Vegetable Compound and soon felt like a new woman. I had no pains, slept well, had good appetite and was fat and could do almost all my own work for a family of four. I shall always feel that I owe my good health to your medicine."—Mrs. HAYWARD SOWERS, Hodgdon, Maine.

For 30 years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for female ills. No one sick with woman's ailments does justice to herself if she does not try this famous medicine made from roots and herbs, it has restored so many suffering women to health. Write to LYDIA E. PINKHAM MEDICINE CO., (CONFIDENTIAL) LYNN, MASS., for advice. Your letter will be opened, read and answered by a woman and held in strict confidence.

UNIQUE GATHERING AT KAWAIAHAO CHURCH SHEDS LIGHT ON WORK OF MISSIONARIES AT HOME AND ABROAD

A gathering which was both interesting and unique was held in Kawaiahao church last evening when local mission workers of half a dozen nationalities met to welcome to Honolulu the delegation of eight American missionaries, representatives of the American Board of Foreign Missions, which arrived yesterday morning en route to the mainland after nearly a year spent in the Orient, during which time the members attended the centenary of the establishment of the first American mission in India.

With the exception of Mrs. C. P. Bodman and Miss A. C. Bridgman, the members of the party, including Mrs. Samuel B. Capen, Miss Capen, Miss C. M. Hall, Rev. G. A. Hall, Mrs. Hall and Dr. William E. Strong, left for the mainland in the Manchuria this morning. The misses Bridgman and Bodman will remain in Honolulu until the next steamer to the coast.

The meeting last evening was well attended, and was followed by a delightfully informal reception. Greetings were exchanged and interesting conversations brought out the details of the great mission work now being carried on at home and abroad. F. J. Lowrey, vice-president of the Hawaiian Board of Missions, acted as moderator and introduced the speakers. The meeting was opened with an organ selection by A. B. Ingall, which, being followed by an invocation by Rev. H. H. Parker, pastor of Kawaiahao, who spoke in Hawaiian. With a few appropriate words, Mr. Lowrey welcomed the visitors on behalf of the Hawaiian Board, while Mrs. Theodora Richards spoke in behalf of the Woman's Board. Her remarks were timely, and she laid stress on the fact that, next June, the Woman's Board will observe the 43rd anniversary of its organization.

In a touching address, Dr. Doremus Scudder spoke of the life and work of

the late Dr. Samuel B. Capen, who perhaps was the most prominent layman in the United States. Doctor Capen headed the delegation which left Boston for India in September. In January he was stricken with pneumonia in Shanghai and died.

"Hawaii is a land where the races of the earth live in peace and harmony, and it seems absolutely absurd that these isles of Peace in an ocean of Peace should be made the center of such warlike preparations. Doctor Capen set a new highwater mark of efficiency as president of the American Board of Foreign Missions and had made it impossible for any future incumbent to be a mere figurehead. His work has created a new era in the history of foreign missions," said Dr. Scudder.

One of the interesting features of the meeting was scripture reading in several languages. Reverend Okumura spoke in Japanese, Reverend Lo in Chinese, Reverend Soares in Portuguese and Dr. Parker in Hawaiian.

For the visitors the speakers were Rev. G. A. Hall and Dr. William E. Strong, the latter editor of the Missionary Herald. Their remarks were highly interesting, and both dealt with the great advance which Christianity has made in the Far East during the past several years, as well as the great work which American foreign aid is accomplishing.

"Hawaii is the romance of missionary enterprise," declared Dr. Strong. "The great problem of tomorrow, now that all the races of the earth are getting to know one another, is: How shall all the sons of man dwell together?"

The singing of the doxology by the congregation, and of Hawaii Ponol, led by the Kamehameha chorus, brought the meeting to a close, after which a reception was held, which was in the form of a "get-acquainted" gathering.

ALL OFFICERS AT SCHOFIELD ON THE COMMITTEE PLANNING COUNTY FAIR

(Special Star-Bulletin Correspondence)

SCHOFIELD BARRACKS, Apr. 16. A meeting was held last night by the committee in charge of the big county fair to be given May 6 and 8 in and around the beautiful shady yard of Colonel McGunagle's quarters. The committee with Captain Scherer at its head drew up the general plans of the fair grounds, decided a great many questions regarding the arrangements to be made and assigned to nearly every officer of the garrison some duty in connection therewith. It will be the biggest affair of this kind ever at

tempted at Schofield Barracks.

The railroad company has promised to use every available car to transport the crowds from town, with special trains and the lowest possible excursion rate. Applications have been received from nearly all the important firms in Honolulu for space for their exhibits. There will be a dance hall and five bands, the four regimental bands and the Royal Hawaiian Band, the members of which will be guests of the Schofield musicians. There will be a small general admission charged to enter the fair grounds, which will include free admission to all the exhibits and to the circus in the afternoon and vaudeville performance in the evening. In addition to the many booths for selling candy, pop corn, hot corn on the cob, hot dogs, lemonade and every other kind of county fair refreshment there will be a modern cafe chattering with the best things to eat and the best cabaret this side of Broadway. For the use of anyone who wants to make himself solid with any of the high personages coming to the fair, a country band will be hired for serenade purposes. The band will be entirely made up of army officers and can be hired entire or by the piece.

Another feature will be the Midway, with snake charmers, fire-eaters, wild men, fortune tellers, an aquarium, amusements and freaks of all kinds and of course some incubator babies. An army kitchen will be established by Capt. Holbrook with improvised ovens and ranges, and prepared to feed 4000 people. Captain Holbrook is the culinary expert of the army. A few years ago he was ordered with his field bakery to the maneuvers at Des Moines. His train arrived at 8:00 p. m. with men and implements. At 5:00 a. m. the next morning he had 1000 loaves of bread ready for distribution to the troops. An officer well known throughout the army for his wit will take the part of justice of the peace and will be assisted in keeping the law by a squad of country constables.

The days set aside for the fair will be a holiday for all at Schofield, and everyone from Honolulu and the other army posts will be made welcome. Every officer is expected to invite some officer from another post or friend in town, and arrangements are being made for each company, troop and battery to invite some organization from another post. The 2d Infantry is expected to be here on its hike.

May 6 will be officers' day and guests of the suffrage-seeking sex will be made welcome in the large front room and lanai of Colonel McGunagle's quarters, which will be so decorated as to have all the appearances of a Japanese garden. Here they will be received by the wives of the colonels and served with tea and refreshments. On soldiers' day, which will be May 8th, the tea garden will be under charge of a committee selected from the wives of the non-commissioned officers.

On both these days the gates will be opened at 2:00 p. m. and will not be closed until all are tired to further enjoy the sports and frivolities. Arrangements are now under way for a baseball game on May 6 between the officers and the University Club, and on May 8 between a picked team from the four regiments at Schofield Barracks and the best team that Honolulu can provide. The new baseball park is less than 100 yards from Colonel McGunagle's quarters and it is

RAYMOND MAKES SUGGESTIONS TO SCHOOL TEACHERS

George S. Raymond, inspector-general of the department of public instruction, is sending out a circular letter to all supervising principals and teachers in the public schools in which he makes numerous suggestions in regard to their work.

The following is taken from the letter: "The spirit in your schools is an essential prerequisite and it is felt rather than seen. This essential means harmony, good will, team work, good order and system from all. The school atmosphere is a resultant from this fraternal spirit of earnest and faithful work. Is your resultant 100 per cent? Ninth inning enthusiasm is not to be mistaken for continuous and earnest school spirit.

"How is the housekeeping at your school? Is each principal, each teacher, and each pupil a good housekeeper?"

"How is each attendance record—what room is keeping the school record low? The average for the territory is 92 per cent. How much better can each of your teachers show? Is each register neat, in ink, complete, and free from inaccuracies?"

"How is the written work corrected and cared for? This is one important test of the teacher's efficiency in getting results from the pupils.

"Preparation. No work is ever well done that is not carefully planned. Does each plan book contain a timetable? How are the daily lesson plans being written? Do they show subject-matter carefully detailed with an aim and purpose and a correlation with the previous day's work? Do your teachers write a plan feeling that it is a departmental task, a waste of time, or to oblige some authority? Or do they feel the need of such a directing force and such an assistance? Are these daily plans the result of thought or the product of mechanical repetition?"

"The Recitation. This is the place where the teacher is put to the test of teaching, testing and drilling the pupils. Are the recitations thought-provoking? Is the subject-matter of value or do you question it all? How was the method used? Was it appropriate to the subject-matter? Was the teaching thoughtful and was the lesson developed fully? Was it well illustrated? Was the blackboard or material of any sort used? Was the testing successful in getting the pupils to do a large share of the work? By many questions or few? Was skill shown in guiding the thought of the pupils along the correct lines? Was judgment shown in assigning the next lesson? How was the drilling to fix principles and facts conducted? Was the drilling sharp, rapid, and incisive? How is each period in the program? The proper length and at the proper time? Is arithmetic at a time when the 'waves of fatigue' are at the highest?"

"How about the pupils' habits of study? Are the pupils memorizing or are they developing mentally? Are the pupils working on real, vital problems in which they take an interest or is school work flat, stale, desultory and unprofitable? If the school work is not vital and full of interest, what is the matter? Hardly with the pupils, unless the moral condition in the community is very bad.

"Are your teachers in a rut, doing perfunctory, routine work? Are the pupils entering the higher grades well prepared? Is promotion for no better reason than that pupils have been in school a year?

"The pupils are forming habits in school that they will find of more importance than acquiring knowledge. What kind of habits are your pupils forming? Are you inculcating principles of service, courtesy, respect, work, system, and self-control in your pupils? Are your pupils learning how to use library books so as to appreciate the value of good literature? Are they learning to do well those things they undertake?"

"You are the school doctor. You must diagnose each individual school disease, fracture, or trouble and find the seat of the poor efficiency and prescribe a better way. Your duty is to keep the school in good health. Are any of your schools fit for quarantine?"

"I am sending this letter to supervising principals and principals in the hope that it may be of service to them and their assistants. It indicates lines of investigation that you may well follow in your visits. Copies should be distributed to teachers and the many topics discussed freely and frankly on your tours and at your meetings."

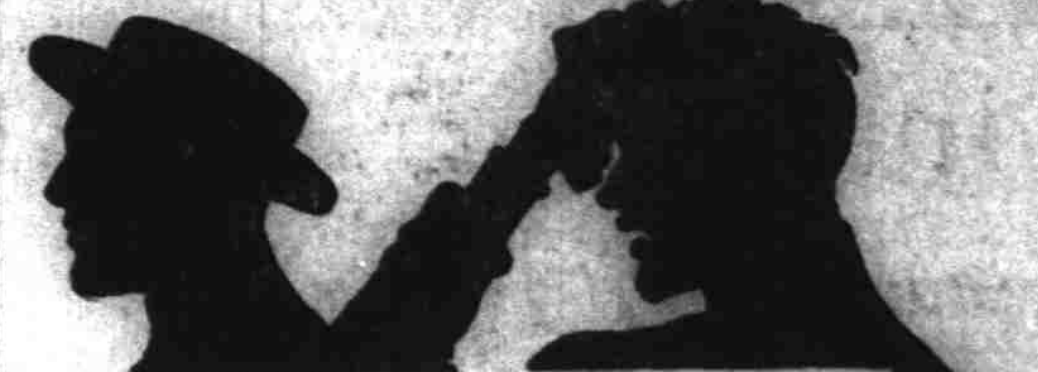

PEOPLE IN HONOLULU ARE AMAZED

No medicine has ever caused such amazement in Honolulu as the simple mixture of buckthorn bark, glycerine, etc. known as Adler-i-ka. This remedy draws such surprising amounts of foul matter from the body that it is known as the most thorough bowel cleanser sold. Adler-i-ka acts on BOTH the upper and lower bowel and JUST ONE DOSE relieves constipation and gas on the stomach almost IMMEDIATELY. The Hollister Drug Company—advertisement.

hoped that it will be completed in time for the fair.

Schofield Barracks will keep open house on May 6 and 8. Admissions and all charges will be as low as possible. Any balance on the books at the end of the fair will be given to the Army Relief Society.

"When does the honeymoon end?" "Well, frequently, like the other moon, it ends after the last quarter is reached."

It's "Good-By" Discomfort When You Wear B. V. D.
